Raw tits, flush with milk, a small goat follows at her scent. A mass of dark ravens mane fur flowing from the heaving meaty gland between her thick thighs. a warriors braid down her muscular back. an oxen's pelt over her broad shoulders. rich menstrual blood flows down onto her viking boot. her hooves, horn, and tail greased with the cunt musk of the villages ripest, thick titted virgins. This glorious, valiant, she-huntress scouting out all of the undergounds remaining outlawed cock, each one severed another feather in her dark crown

She glides from the church rooftop onto the brush and dead grass. Squealing as her pendulant breasts and nipple ring brush rock. Her crew cut shaved close, black bat wings fold into her fur matted, muscular back. She squats and sniffs around, smelling shit. Spotting a nice pile to her left, she devours it. A man walks by, she screeches demonically, lifts her wings to glide in his direction, teeth bared, shaking with rage, contempt, blind hate and fury. She swoops low

Sagged tits pounding furiously as the barrel chested lesbian runs from police. She wears cargo shorts 3 sizes too large with wallet chain, a wifebeater and gleaming white reeboks. Siren blaring as she climbs into a dumpster, sweat dripping down her mannish face, warm urine begins to spread through the crotch of her shorts. What was her crime? Is she just a dark lesbian?

An obese woman with shaved head and tribal breast tattoo moans low in the suffocating heat of a basement, both arms chained to the ceiling. A rat scurries across her teva'd foot, she cries out. There's death metal thundering mercilessly on an unseen speaker system. A nude, muscular woman walks slowly behind the captive and lashes her savagely with a leather whip. Such pleasure. The 4x4 pulls into the gluten free organic grocer, a 49 year old woman looks in the rearview and runs her hand through her salt and pepper butch cut, she cracks the widow for her wolf/german shepard mix. She exits the car when a small asian woman brandishing a switch blade appears from behind the garbage bin. "I cut your dick face bitch, give key." The woman ducks low an puts up both fists like a boxer, she and the asian begin circling each other. She growls as the asian advances with the blade. She attempts to throw a punch and the asian slashes her arm.

She's riding her quad through the forest trail in her cowboy hat. A fat, topless, 23 year old longhaired 'girly girl' has her arms wrapped around her waist. She feels so honorable, so strong with her girl holding her tight. The motor buzzes until they reach a clearing with a still smoking fire pit, it's a group of frat boys! and they immediate start to heckle the women. The quad's engine revs and theres an attempt to flee. The topless fat girl squeals as the boys snatch her from the back of the quad, they mock her breasts and throws rocks at the other woman speeding away on the quad. It's getting dark, dark lesbians

Jealous, angry, they would knock her around the trailer, blacken her eye. reply 106 07/13/2013

Why so much lesbian anger, sadness, and loathing?

Why are we so petty with our sisters, seething over slights real or imagined, always waiting for the faintest whisper of contempt or loathing, anything to unite us in anger rather than divide us in our submission. Our laughter meted out like a misers coal, tending meagre lachrymose fires, our joyous souls solemnly guarded like a stone fortress that protects us from our desires ?

Judging? Whispering? Envying? Blaming? Loving ? Longing? Lusting? Hating? Ignoring?

oh for a world of saphhic ideals of the unity of feminine love and the solidarity of sisterhood and strength of our nurturing life giving bodies...

We have birthed a world that mocks us and demands our obeyance to the masters we once suckled at our breasts

Our language cannot spell happiness without a penis, the two words flow uncontrollably together off our scolding but envious tongues

happiness penis happiness penis hapenis hapenis hapenis a penis a penis a penis

We who give life to all, mothers of the earth and all its children , nourishing humanity with our ample bosom, we have no happiness of our own...only a hole where one should be.

The dark lesbian giggled quietly to herself. Silly dark gay men, she thought. Not one had a real nail but rather "nailed" her up with picture hooks. The shrieks of pain as dark gay after dark gay hit their thumbs trying to nail her to the cross was all too much. Christ on a cracker she thought, who are these idiots? And then wondered "who in the fuck is Christ?"

Once the dark gays ran off to the clubs, the dark lesbian freed herself from the picture hooks with the assistance of her friends Monica and Debbie. After a short confab, the dark lesbian and her friends broke into the houses of the dark gays and re-hung their artwork WAY too high, who were still dancing the night away.

Shrieks were heard throughout the kingdom that night.

Black winter evening, the sound of patriarchal church bells ringing like oppressive steel gonads in the night, a darkness spotted with falling icy stars.

Gerda, a thick skinned, ripe German maid, quivers nude before the vigorous licks of fire extending from a fireplace maw, awaiting the return of Frau Lichten. Outside on this solstice, the dead phallic trees stare in seeming hunger through the window as Gerda's thighs press and stroke against each other in hunger and confusion. No one told her of these pleasures in the simple mountain village of her birth. She studies the swirling snow as it strokes the black night. Gerda hears a creak. It is Frau Lichten, appearing around the corner with...that thing: a creased and studded black scepter of nightmare proportions bound to the militarized bone piecework of the frau's pelvis.

The stillness of the night suggests awesome anticipation. Frau Gerda offers a knowing, determined smile. The solstice ritual has begun. Dark lesbians.

Gwenyth's halo of mortal privilege offered no protection on that sinister, pre-Christmas evening, the night of The Homeless Drake n' Dyke Hostel, a gleaming steel edifice shaped like a chrome oyster along the Hudson River. After preening and gleaming for the media scrum, Gwynneth enters the event, passing through artfully lit passageways, simulating a journey into dreams, the subconscious, a moral and psychological time-void.

Gweneth slips on a greasy dark floor, no doubt the error of some mopping brown slave. A shining black panel opens and Gwenneth feels nothing, hearing only the whistling of cold, manufactured air as she spins and drops into a now-damp void. Her patrician pelvis slams onto a beaten, filthy mattress, scented pleasantly by ocean brine.

Angry, poised, pissed and pouty, Gwweneth peers into the darkness, calling out for issuances of responsibility, for apologies, for hands to help. Instead, in this dark basement area, she sees eyes. Peering, leering, mirthful eyes. She spots a ripped bicep, neat, tight, raising a mystical-looking vibrator into a prism of rare light. Gwennnyth examines her pale legs: panties torn away, gown ripped to pieces, her prim quim beating like a drum at a Mayan ritual sacrifice. She hears the sound of mechanical grinding, of electricity coursing through the innermost rubber workings of the futuristic phallus. Gwwenyth realizes she is quite surrounded.

I'm bisexual myself (so I get harassed by both the DL gay men and lesbians, and pretty much the whole queer community) so im only half lesbian but I appreciate the humor in this thread. It pokes fun at stereotypes (which is often what comedians do) and gives you a story to laugh at.

Personally, I think the thread is fine but could use some better grammar. The OP is a writer of some type IIRC, and writes beautifully, though.

I'm a lesbian. I love this thread. The only thing I regret is that the stereotypes of insufferable lesbians being used here are old now. There are few "daggers" now. Less moon cysters. It's more academic and fussy.

These kids are over-educated in the ways of women's and gender studies — so any awkward/atypical personal characteristic has been analyzed to death in at least 50 term papers across the country for any given semester and given heavy socio-historic meaning. They wear bow ties and use words like "microaggressions" and "cis-privilege" and can suck the fun out of a room in a single blog post.

They talk about nothing but sex and gender, and yet they are so priggish about approaching each other to get fucked — unless its a safe space where it's been pre-determined to be okay to approach someone and ask them to fuck. I hang out with bisexual girls now.

Blah lesbians.

Followed by gender norms through the alleys of a big city, the alleys of the mind. Ze reaches into zir Jack Spade bag, cradling a switch blade with scarred, strong hands. Ze shivers. Fifteen minutes ago, ze held it to the throat of a teenage boy who called zir a "faggot bitch" on the corner.

Ze rubbed zir soft pack against the boy's thigh while ze held the knife against his neck and its stubble — so natural, so taken for granted.

Ze hated the boy for his cisprivilege, even as ze was turned on by it. Ze would make him pay.

"How about I make you lick estrogen cream off my cock?" ze hissed into his ear.

Short, gnarled fingers run through a shock of white hair, as coyotes howl in the distance, her motorcycle exhaust vibrates up the hillside, or perhaps it's just the echo of one long, unending Coors Light fart

Said bedroom door is swung open and a burned, charred, troll like negress appears holding a greased bouncing dildo cock. Wendy screams and attempts to flee but lands prone on her breasts with legs spread and nightgown hiked up to her waist exposing a completely bald jonbenet

She uses chloroform on people that She doesn’t like and stealth to sneak into my house while I’m asleep to experiment on me. She also planted cameras to watch my every move and hire people to follow and keep a close watch on me wherever I go. She also plants devices in my ear and under the skin and some may even be directly on my brain. She shot it into my skull from a distance to keep it covert. They are small enough to where you only hear a pop and feel a small sting while you’re asleep. She communicates to me through the devices She planted in me and because no one really understands it or are afraid of it, She diagnosed this targeted individual with schizophrenia and gives false checkups and xrays to hide it. It’s all to make me look and sound unbelievable if I do come out about it. I was used as a puppet. A rag doll that is unable to prevent or defend against these people. She is a criminal that can cover up anything She wants covered up for the sake of national security. She’s shown me enough to know what these people are capable of doing to innocent people. Targets are picked based on knowledge and the side you pick. Pick their side, She’ll still experiment on you, only She’ll show you pornography whenever you feel too lonely. Pick your own side, She torture your mind and pick apart every relationship you’ve ever held close to your heart. She’ll rape, call me every thing in the book and crush my dignity so I will never be able to trust another man. She throws in campaigns with teenagers and people my age and display me on camera and make “voyeurism” acceptable with people in targeted cities. She accepts it because She threw a rad party and were nice enough hosts. She let very specific people with a say in society know to never let me leave or find help. Everyone is paid and/or threatened/killed to never come out with information. She use microwave weapons as a way to torture me even more. I'm sure She drugged me plenty of times so my credibility is ruined. I personally would never touch a drug except marijuana.

La Flaca penetrates her jail cell bars with her left breast as she hisses at the passing lesbian guard "Mija, it's me." The guard winces and instantly floods her polyester uniform pants. La Flaca is raspy and hollowed out, a shell of her former serpentine beauty, track marks dot her entire arm. The guard turns and bravely sets her sights on the appearance of her beloved now so wretched and frail. La Flaca's black curls sweated to her thin face, in a destroyed, full throated but still erotic accented English she rasps "Perra" and her thin arm powerfully flies through the bars and strikes the guard.
